Looping in Joe and wanted you all to look at these pages:

**Deliberative Process / Ex. 5**

Just in case, I've attached them again. I've also sent this to Nancy, Erik, and Charlotte over in OCSPP.

All,

Please refer to the attachments for production set to go out next week for a FOIA in litigation with PEER. The FOIA request that is at issue in this litigation, EPA-HQ-2018-009393, is seeking documents related to a draft health assessment for formaldehyde prepared by EPA but never published. The custodian list for this production was JP Freire, Jahan Wilcox, Lincoln Ferguson, John Konkus, Elizabeth Bowman, Daisy Letendre, Amy Graham. The time frame for all documents is between January 1, 2015, and July 9, 2018.

The request seeks draft versions of the assessment, communications between outside parties and the administrator's office about the assessment, and documents relating to communications with Kimberley Wise White and the American Chemistry Council relating to the assessment. The custodians include a number of ORD staff as well as former Administrator Pruitt, Administrator Wheeler when he was Deputy Administrator, Ryan Jackson, Samantha Dravis, and Brittany Bolen.

The “PEER v. EPA 5.17.19 Release in Full” set is approximately 299 pages of records. They are mostly emails to external parties, including the American Chemistry Council and other stakeholders.

The “PEER v. EPA 5.17.19 Release with Redactions” set is approximately 32 pages of records. They include some internal communications relevant to the assessment redacted for PII and deliberative process.

Please let me know if you have questions or concerns by COB Thursday, 05/09. For your convenience, I have made the documents searchable.
